The Rocky Mountains is one of the largest mountain ranges in the world, stretching over 5000 K (3100 M) from northern British Columbia to as south as New Mexico, creating the great barrier and the continental divide of North America.

On our adventure we shall see only a small portion of this, however, it is the most spectacular and majestic portion the Rockies has to offer.

Highlights

Vancouver • Wine Country • Banff National Park • Jasper National Park
Lakes Louise, Kootenay, Emerald, Moraine • Athabasca Glacier • Sea to Sky Highway • and more...
