This North Atlantic island is located exactly on the Atlantic ridge which separates Europe and North America. It is sparsely populated and famous for its hot springs, geysers, waterfalls, active volcanoes and huge Glaciers, including the largest one in Europe. This "around the island" tour will give a fantastic taste of all of this – from the Lava beaches in the south to the whales and fishery industry in the north. From the Fjords in the east to the Capital Reykjavik in the west. From climbing glaciers to standing on the continental divide... this tour and this Island is like nothing you've seen before!

Highlights

Thingvellir Lake National Park • Gulfoss Waterfall • Dyrholacy Cliff • Vatnajokull Glacier
Lake Myvatn • Godafoss Waterfall • Whale Fjord

Rider's Feedback

“Iceland was the most beautiful trip I have EVER taken!”

“I knew the trip to Iceland was going to be good, but never in my wildest Imagination was I expecting it to be a dream come true!”

“Iceland, with Sapirience is what I call a LEGENDARY ride!”

“The Sapirience team masters the art of leading a tour with soul, spirit and a whole lot of fun! The tour in Iceland was proof of that!”
