The Enormous rocks of the Dolomites rising over the fertile valleys, forests and lakes are a spectacular feast for the eyes and the heart. For as far as the eyes can see, these rocks rise between every two mountain peaks in sight...and on them? Beautifully paved curved mountain passes that rise from one side of the ridge and descend from the other, where one ends another begins. At every peak the beauty surpasses anything you could have ever imagined. This is the Garden of Eden for motorcyclists!

Highlights

Stelvio Mountain Pass • Sella Ronda Pass • Marmolada Peak • Mendel Pass
Bormio • Cortino d'ampezzo • South Tyrol • Cave Forts of World War I and more...
